This is a fun game. It is very Spy oriented. Most missions can be won with Stealth. It is always possible a shootout will occur so be ready for such a thing. I would like to see more maps for the missions from the Devs as some maps seem to get used again. Eventually you will have many spies and have to keep some on other continents to react to missions. It is a fun turn based game.. Truly one of the BEST games of the year!! I love every minute of gameplay!!
